

Dragomir Mijic, DO

Dragomir Mijic, D.O. is a fellowship-trained shoulder and elbow orthopedic surgeon with advanced training in shoulder and elbow replacement and arthroscopic shoulder and elbow surgery. Dr. Mijic sees patients with all types of orthopaedic injuries, with a special emphasis in sports medicine and shoulder and elbow reconstruction.

Dr. Mijic earned his undergraduate degree from The College of St. Scholastica in Duluth, Minnesota and medical degree from Des Moines University, in Des Moines, Iowa. Dr. Mijic completed 5 years of orthopedic surgery residency training at Michigan State University St. John Health System Hospitals. During residency he was selected chief resident and earned the recognition of orthopedic surgery resident of the year. Dr. Mijic then spent an additional 12 months of subspecialized training to complete a Shoulder and Elbow fellowship at Holy Cross Hospital in Fort Lauderdale, Florida under the direction of Dr. Jonathan Levy.

Having completed a shoulder and elbow fellowship, Dr. Mijic is passionate about complex disorders affecting the upper extremity. He has diagnostic and surgical expertise in the areas of reverse and anatomic total shoulder replacement, total elbow replacement, shoulder and elbow arthroscopy, and upper extremity fracture management.

Dr. Mijic has been actively involved in advancing the field of orthopedic surgery through orthopedic research and education. He has authored multiple orthopedic textbook chapters and journal articles and has presented research at several national meetings.

Dr. Mijic treats many shoulder and elbow disorders and has diagnostic and surgical expertise in the areas of reverse and anatomic total shoulder replacement, shoulder and elbow arthroscopy, rotator cuff tears, sports-related injuries, total elbow replacement, upper extremity fracture management, degenerative joint disease, tendonitis, degenerative and traumatic orthopedic conditions throughout the body.

Dolfi Herscovici, Jr., DO

Dr. Herscovici provides orthopedic health care services covering simple to complex problems. As a result of his training and fellowships his practice includes injuries, problems and diseases of the Foot and Ankle. These can range from the simple care of bunions, hammer toes or painful feet to those who present with more complex problems such as diabetics, patients with severe arthritis, fractures and dislocations of the foot and ankle, those with congenital abnormalities, including polio, cerebral palsy and clubfeet, patients presenting with disabilities as a result of tendon, ligament or nerve problems, infections involving the foot and ankle, or those who have developed problems as a result of prior injuries to the foot or ankle.

In addition, his training and experience in the care of trauma patients and those with post-traumatic complications allow him not only to care for patients who have sustained a recent injury but also to treat patients who have failed to heal properly. This also includes those who have developed infections or arthritis due to their injuries along with patients who have developed deformities as a result of their accidents. Dr. Herscovici hopes that by providing treatment not often available, he may help to improve the quality of care patients receive when they present with their orthopedic problems.

Alexander Pappas, DPM

Dr. Alexander Pappas completed his Bachelors degree at Tulane University with a B.S. in Neuroscience. He then attended Scholl College of Podiatric Medicine at Rosalind Franklin University. His 3 year surgical residency training was completed at West Houston Medical Center in Houston, Texas.

Dr. Pappas then attended an ACFAS approved fellowship at Monongahela Valley, Pennsylvania for Advanced Foot and Ankle Reconstruction with The Orthopaedic Group. He has had articles published in The Journal of Foot and Ankle Surgery, Foot and Ankle Quarterly, and Podiatry Today. He is also a reviewer for the journal, Foot and Ankle Specialist.

Dr. Pappas is trained in the medical and surgical treatment of foot and ankle arthritis, fractures of the foot and ankle, foot and ankle tendon ruptures, ankle sprains, painful flat foot, painful high arched foot, heel pain, bunions, hammer toes, diabetic foot care, ingrown nails, Achilles tendon pain, ankle arthroscopy, orthotics, tarsal tunnel release and diabetic limb salvage.

Technology. Expertise. Convenience.

These are just some of the ways the Center for Bone and Joint brings imaging to a whole new level for patients. Serving Citrus, Hernando, Pasco and Hillsborough counties in four convenient locations.

BENEFITS OF OUR MRI SERVICES

- Professional certified technologists and read by board certified radiologists
- Flexible scheduling featuring same day or next day appointments
- Extended hours which include early morning and evening hours
- Patients can leave with their MRI on a CD
- Offering discounts and payment options for self pay patients
- State-of-the-art 1.5 Tesla GE Magnet which produces high quality MRI scans
- Accredited by ACR

PHYSICAL/OCCUPATIONAL THERAPY

- Specializing in sports, orthopaedic and all musculoskeletal dysfunctions
- 16 years average clinical experience
- Exclusive one on one therapist/patient ratio
- Doctorate level training
- Licensed physical therapists, occupational therapists, physical therapy assistants and occupational therapy assistants
- Emphasis on manual therapy techniques
- Nationally and Internationally trained therapists offering diverse treatment approaches

To Schedule an Appointment with our PT/OT Department call:

HUDSON 727-863-4122 BROOKSVILLE 352-597-7403

LUTZ 727-605-3808

SCOPE OF SERVICES

EMERGENCY FRACTURE CARE

Casts, Splints, Braces
Fracture Surgery

SPINE SURGERY

Vertebral Compression Fractures
Microdiscectomy
Fusions/Laminectomies
Spine Deformity Treatment
Kyphoplasty
Spine Stimulators

SHOULDER SURGERY

Shoulder Arthroscopy
Shoulder Replacements
Rotator Cuff Repair

ELBOW AND HAND SURGERY

Tennis Elbow
Cubital Tunnel Syndrome
Carpal Tunnel Syndrome
Trapezium Implants
Trigger Finger Release

HIP PROBLEMS

Total Hip Replacement
Mini-incision Total Hip
Anterior Approach Hip Replacements

KNEE SURGERY

Knee Arthroscopy
ACL, MCL and PCL Reconstruction/Revisions
Total Knee Replacement

FOOT AND ANKLE

Arthritis
Fractures/Dislocations
Congenital Abnormalities
Diabetic Foot Care
Bunions/Hammer Toes/Ingrown Toenails
Tendon, Ligament & Nerve Problems

FLUOROSCOPIC GUIDED INJECTIONS

Hip Aspirations & Injections
Epidural Steroid Injections
Selective Nerve Root Blocks
Facet Joint Injections
Platelet-Rich Plasma Injections
Radio Frequency Ablations
Stem Cell Therapy

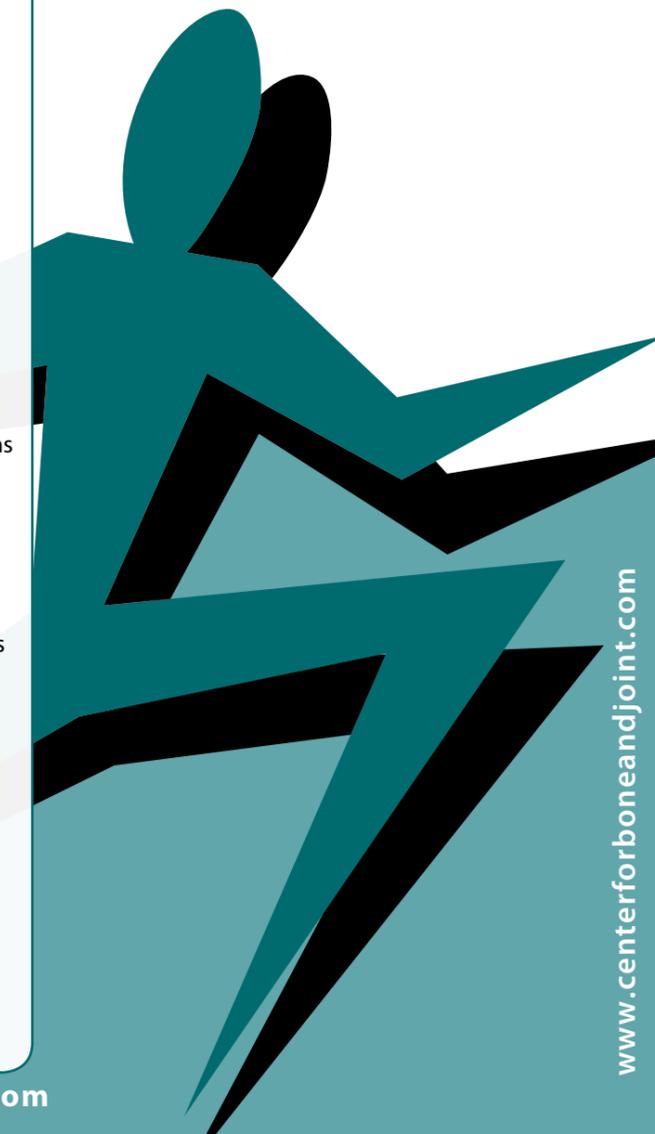

MAGNETIC RESONANCE IMAGING

X-RAY SERVICES

PHYSICAL/OCCUPATIONAL THERAPY

ELECTRODIAGNOSTIC STUDIES

CBJD
THE CENTER FOR BONE & JOINT DISEASE

Craig R. Bennett, MD

Dr. Bennett attended the University of Virginia in Charlottesville, Virginia and received a bachelor of arts with high distinction. He earned his degree in medicine at the University of Virginia School of Medicine in Charlottesville, Virginia. He completed his internship in general surgery and his residency in orthopaedic surgery at the University of Chicago Hospitals. His fellowship in spinal surgery was at the Hospital of Joint Disease/New York University. Dr. Bennett was a member of Alpha Omega Alpha at University of Virginia and the Pre-medical Honor Society, University of Virginia. He was awarded the Alpha Epsilon Delta Scholarship at the University of Virginia and received Intermediate Honors at University of Virginia.

Dr. Bennett specializes in general orthopaedic surgery to include joint replacements, hips, knees and shoulders in addition to disorders of the spine. He performs surgeries at North Bay Medical Center, Regional Medical Center at Bayonet Point, Oak Hill Hospital, Bayonet Point Outpatient Surgery Center, Longleaf Surgery Center and St. Joseph's Hospital.

Dr. Bennett has had his research published and given many national and local presentations about his work.

Jared P. Salinsky, DO

Born in Miami Florida, Dr. Salinsky attended the University of Florida. He went on to study medicine at Philadelphia College of Osteopathic Medicine, where he also completed his Internship. He completed his Residency Program at Parkway Regional Medical Center in Miami Beach.

Dr. Salinsky is board certified by the American Osteopathic Academy of Orthopaedic Surgeons and is a member of the American Osteopathic Association as well as several other professional organizations.

Dr. Salinsky has written numerous publications and is also involved with the Susan G. Koman Breast Cancer Foundation.

Dr. Salinsky is presently on staff with Oak Hill Hospital, Regional Medical Center at Bayonet Point, All Saint Surgery Center, Bayonet Point Outpatient Surgery Center, North Bay Hospital, Longleaf Surgery Center and St. Joseph's Hospital.

He is a licensed practitioner in the state of Florida and specializes in general orthopaedics, sports injuries, total joints and arthroscopy with special training in shoulders.

George Kardashian, MD

Dr. Kardashian was educated at the New York University School of Medicine and completed his hand fellowship at the University of Miami, Jackson Memorial Hospital.

He is a fellow of the American Academy of Orthopaedic Surgeons. He is a diplomate of the American Board of Orthopaedic Surgery. Dr. Kardashian is an active member of the American Society for Surgery of the Hand and the American Association for Hand Surgery.

Dr. Kardashian treats a wide range of general orthopaedic conditions, however, his unique specialty focuses on hand and elbow disorders and surgery of the hand. Dr. Kardashian performs surgeries for a wide range of conditions, including sports injuries, trauma, and arthritis. His unique skills are small joint arthroscopy, endoscopic carpal tunnel release, microsurgery and nerve repair, fractures, trigger fingers release, dislocations, ligament injuries (sprains), tendon injuries, tendonitis, nerve compression, osteoarthritis, rheumatoid arthritis, joint replacement, stiff joints, Dupuytren's contracture, tennis elbow, infection, replantation, tumors, and vascular disorders.

Dr. Kardashian is presently on staff at Bayonet Point Regional Medical Center, Bayonet Point Surgery Center, Oak Hill Hospital, All Saints Surgery Center, North Bay Hospital, Trinity Medical Center, Longleaf Surgery Center and St. Joseph's Hospital.

Juan Raposo, MD

Dr. Raposo is a fellowship trained orthopaedic surgeon. He received his Bachelor of Science degree from the University of Miami in Coral Gables, Florida. Dr. Raposo earned his medical degree at the University of Florida in Gainesville, Florida. Following his graduation, he was accepted to the orthopaedic surgery residence at the prestigious Mayo Clinic in Rochester, MN.

After completing his orthopaedic residency, Dr. Raposo completed a spine fellowship at Ortho Carolina Spine Center in Charlotte, North Carolina where he received training in adult degenerative and adult deformity spinal conditions. He is trained in the latest techniques of degenerative spinal fusion, minimally invasive surgery, spinal trauma and complex adult spinal deformity correction. In addition to a fellowship in spine, he completed a fellowship in orthopaedic trauma and pelvic reconstruction at Southwest Orthopaedic Group in Houston, Texas.

Dr. Raposo sees patients with all types of orthopaedic injuries, with a special emphasis in spine and orthopaedic trauma, including complex pelvis and acetabular trauma. He has additional expertise in lower extremity joint arthroplasty including revision procedures and anterior hip replacement. He treats degenerative conditions of the lumbar and cervical spine such as stenosis and scoliosis, spinal trauma, lower extremity degenerative disease such as arthritis of the hip and knee, as well as a full spectrum of acute and post-traumatic conditions such as complex fractures of the pelvis, acetabulum, hip, knee, and ankle joints, nonunion, malunion, deformity, and osteomyelitis. Dr. Raposo is firmly committed to a patient centered and conservative approach to the treatment of musculoskeletal pathology.

Dr. Raposo is a member of the American Academy of Orthopaedic Surgeons, North American Spine Society, Florida Orthopaedic Society, Mayo Clinic Alumni Association, AO Trauma, and the Orthopaedic Trauma Association.

Christopher A. Reyher, MD

Dr. Christopher Reyher joined The Center for Bone and Joint Disease in August of 2003. Dr. Reyher specializes in Physical Medicine and Rehabilitation. Dr. Reyher practices interventional physiatry. He specializes in non-operative disorders of the spine and other painful musculoskeletal conditions.

Dr. Reyher is board certified by the American Board of Physical Medicine and Rehabilitation and the American Board of Pain Medicine. He completed his Internship in Internal Medicine at Rush Presbyterian St. Luke's in Chicago, Illinois. He completed his Residency training in Physical Medicine and Rehabilitation at the University of Chicago Schwab Rehab Hospital.

Dr. Reyher is a member of the American Academy of Physical Medicine and Rehabilitation. Dr. Reyher is licensed in the state of Florida, a Diplomate of the ABPMR, and a Diplomate of the AB Pain Medicine.

Kirill Ilalov, MD

Dr. Ilalov is a fellowship trained orthopaedic spine surgeon. He received his Bachelor of Science degree from SUNY Binghamton in New York, NY. Dr. Ilalov earned his medical degree at the New York University School of Medicine in New York. Following his graduation, he was accepted to the orthopaedic surgery residency at the prestigious NYU Hospital for Joint Diseases in Manhattan.

After finishing his orthopaedic residency, Dr. Ilalov completed a spine fellowship at the Texas Back Institute in Plano, TX where he received training in adult degenerative and adult deformity spinal conditions. He is trained in the latest techniques of degenerative spinal fusion, minimally invasive surgery, spinal trauma and complex adult spinal deformity correction.

Dr. Ilalov sees patients with all types of orthopaedic injuries with a special emphasis on spine conditions. He has clinical expertise to treat adult degenerative conditions of the lumbar and cervical spine, adult and pediatric deformity and trauma, scoliosis, myelopathy/radiculopathy, infections and tumors. Committed to a patient centered and conservative approach to the treatment of spinal pathology, he is also versatile in the non-operative treatment of spinal conditions including the use of percutaneous injections, radiofrequency ablation, and spinal cord neuromodulation.

Dr. Ilalov is a member of the American Academy of Orthopaedic Surgeons, the North American Spine Society, and the American Medical Association.

Korey Yngstrom, MD

Originally from New Jersey.

College: Monmouth University (New Jersey)

Medical School: Rowan University of Osteopathic Medicine (New Jersey) - senior resident of the year as 5th year resident.

Residency: Zucker School of Medicine at Hofstra/Northwell at Plainview Hospital Orthopedic Surgery Program (New York)

Fellowship: Virginia Commonwealth University Orthopedic Trauma Program (Richmond, Virginia)

- Pelvic and Acetabular Fracture/Reconstruction
- Complex Periarticular Fractures
- Nonunions
- Malunions
- Deformity Bone Loss
- Infections/Osteomyelitis
- Hip Arthroplasty/Reconstruction
- Lower Extremity Post Traumatic Arthritis
- Lower Extremity Soft Tissue Management
- Ring Fixators
- Shoulder and Elbow Arthroplasty/Reconstruction
